Environmental Unit,

Please see the attached Air Sampling QASP addendum for the TO13 method, the Planning section asked me to send it to you for review.

Thanks,

Brad Morgan

Here you go...the only thing not included is any information on the sample locations, since I don't have that information. Let me know if you need anything else or have any questions – thanks - Michelle

That is because Michelle Rocks,

Michelle let me know if you need anything from me to get it done,

Thanks,

Brad Morgan

Hey Everyone,

Paige asked the EPA EU to write the TO-13 QASP after Ben brought up that we didn't have one despite the fact that we are doing the sampling.

The EPA EU provided a copy of the Region 4 version (See link below) and whined that they were too busy. Paige got mad at them but then asked if we could just get it done.

Anyone out there have time to write an addendum to the Air QASP for TO-13 sampling?

We need to get it done,

Thanks,

Brad Morgan

The Region 4 QASP could be used as the starting point for developing the QASP addendum to add the TO-13 air sampling.

Jon,

The attached link contains the Region 4 QASP including the SVOC portion.

Maria
